(I)THE FOLLOWING CONDITIONS OF THE PWD VIDE THE CE, PWD/WRD, CHENNAI REGION, CHEPAUK, CHENNAI-5, IN LETTER N VILLAGE)/004694/2024/DATED:26.06.2024, WHICH ARE TO BE COMPLIED BY THE APPLICANT BEFORE ISSUING OF THE LAYOUT AP

AUTHORITY (LOCAL BODY) 1.The applicants' land should be filled with earth filling with proper compaction to the minimum level of (+)19.860m (i.e.,) 0.22m below the Kn Veeraraghavapuram Tank is (+)20.080m. To protect the site from inundation during floods. The process of earth filling and compaction should 0.30metre depth to achieve required degree of compaction for the depth from 1.070m to 1.190m depending upon the existing field levels. Also pumping operation for the seepage water, if it is proposed to have basement floor and as well as de watering arrangements during flood perior site should not be less than (+) 19:860m and the regular habitation should not be below MFL. 2. The applicants should clearly demarcate boundary of their land before commencement of any developmental activities in the presence of R

concerned without fail and should not encroach the Government land and the same should be maintained as it is in the Revenue records. 3.The permission granted to the applicants, should not be altered / modified / changed to any others. Based on the records submitted by the a documents seem to be fake / manipulated / fabricated, in future the above permission will be cancelled without any correspondence. Hence, the genuinety of the documents submitted.

4. The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should before commencement of work. 5. The applicants should abide by the rules and regulation of the WRD from time to time. The applicants should also abide court of law of both

6.WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicants-to-encroach the WRD 19. The NOC for this site from the WRD is purely issued on the basis of inundation point of view.

7. The applicant should not carry out any other cross masonry structures across the River / Eri / Channel / Pond without prior permission fro Channel / Odai or any water bodies that belong to government, the same should be restored and rectified to its original condition at their own 8.The Government Channel (Odai) in S.F.No.17,18 and 19 on Southern side boundary along the stretch of applicants land should be complete retaining wall on either side of the channel as per the FMB at the applicants own cost. The bed level of the above channel should be ascertained development activity in presence of the Executive Engineer. Moreover the width of entire field channel as per Revenue records (FMB) within maintained properly without any change in measurement as per Revenue records at any cost.

9. The Government Channel (Odai) in S.F.No.17, 18 and 19 on Southern side should be marked as per FMB and monitored and maintained by the channel should be maintained without encroachment as per Revenue records and the hydraulic parameters of the field channel should be necessary periodical arrangements for free flow of water through the existing channel to the downside area within the proposed layout site. A periodically and remove the obstruction then and there without any hindrance for free flow of water at his own cost boundary along the prop 10. The applicants should not object at any time for the maintenance work / improvements work of the odai to be carried out by WRD. The applicants should not object at any time for the maintenance work / improvements work of the odai to be carried out by WRD. The applicants applicants should not object at any time for the maintenance work / improvements work of the odai to be carried out by WRD. The applicants applicants applied to be carried out by WRD. in the odal and avoid the sewage water into the channel, etc., The applicant should give an undertaking in writing to the effect that the above p maintenance/improvement/development works as per Revenue records [FMB] are to be carried out by WRD in future periodically. **Technical Suggestions:**

a. The applicants should prepare the layout proposal by considering the suitable internal storm water drainage network drain as micro drains site condition. The same should be connected to the local drain/ channel, rainwater harvesting, roads with road side drain and sewerage treat debris and other solid waste management as per norms in existence within the applicant's land according to existing rules in force and should authority without fail.

The sewage or any unhygienic drainage (Treated or Untreated) should not be let into drain / channel / course at any cost and the debris and o the drain / surplus course obstructing free flow of water. The applicants should make drainage network, at their own cost and the same is to be applied on the drain of the dra drainage / channel. There should not be any hindrance to the free flow of internal drain to downstream. b.The necessary setback distance especially on Southern Side should be provided within the site as per site condition as per the norms in exist (as per the circular issued by the office of the Commissioner of Town & Country Planning, Chennai - 2 vide Roc. No. 4367/2019- BA2 / Dated: should not be any construction activities in future also, the CMDA should issue completion certificate only after obtaining compliance certificate c. The applicants should get clearance certificate for this site from the Revenue department to make sure that the site is not an encroached pro confirming this proposed site boundaries.

d. The sewage water from the applicant land should not let into the drain and for the disposal of the sewage water, suitable arrangements should as well as the construction materials/debris/garbages should not be dumped into the channel/river/tank at any cost. At any cost, sewage / sullage should not be let into channel/river, and the garbages, debris and construction materials should not be dun free flow of water.

The owner of the document received from the applicant in respect to the Ownership is purely of applicant's responsibility and it is only for referen validity of this document should be verified by the Development / Revenue authorities. The specific remarks on inundation are purely issued on technic

Failing to comply with any of the above conditions, WRD reserves rights to withdraw the technical opinion on inundation point of view to the abo shall not be eligible for any compensation whatsoever and as well as legal entity.
