**STATEMENT OF OBJECTS AND REASONS**

Land pooling or land re-adjustment is a way of consolidating land for development of projects by making land owners as partners in development. This scheme can also be an alternative to the time consuming and contentious land acquisition procedures. Tamil Nadu is a rapidly urbanizing and industrially progressive State with a growing need for housing as well as infrastructure. In order to boost the economic and social development apart from orderly and planned spatial developments in the State and to share the benefits of such development with land owners, it is proposed to introduce Land Pooling Area Development Scheme as an alternative to the present modes of land acquisition in order to meet the land requirements for the developmental activities of the State. To give effect to the above decision, the Government decided to amend the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972) suitably.

2. The Bill seeks to give effect to the above decision.
