- WERE HANDED OVER TO THE LOCAL BODY VIDE GIFT DEED DOCUMENT NO.103/2023, DATED:04.01.2023 @ SRO REDHILLS.

CONDITIONS:

- (THE APPLICANT SHOULD FOLLOW THE CONDITIONS MENTIONED BY THE CE,PWD,WRD, CHENNAI REGION, CHEPAUK, CHENNAI-5 LETTER NO.DB/TS(3)/F-2732/NOC-SIRUNIAM/2022/DATED:20.04.2022, ARE TO BE COMPLIED BY THE APPLICANT BEFORE ISSUING OF THE LAYOUT.
- The applicant's land should be filled with earth filling with proper compaction to the minimum Level of (+)12.620 m i.e. 1.60m below Head sluice sill level of Cholavaram Tank which is (+)14.220m to protect the site from inundation during floods. The process of earth filling and compaction should be done in layers of not more than 0.30 metre depth to achieve required degree of compaction for the depth varying from 1:170 metre to 1:430 m depending upon the existing field levels. Also, the applicant should provide emergency pumping operation for the seepage water, if it is proposed to have basement floor and as well as dewatering arrangements during flood periods.
 - The all round pavement level within the site should not be less than (+) 12.620 m. The applicant should prepare the layout proposal by considering the suitable internal storm water drainage network (peripheral & lateral) of suitable sizes and the same should be connected to the local drain/channel, rainwater harvesting and sewerage treatment and its disposal and garbage/debris and other solid waste management as per norms in existence within the applicants' land according to existing rules in force and should get proper approval from competent authority without fail.
 - The sewage or any unhygienic drainage (Treated or Untreated) should not be let into drain /channel/course at any cost and the debris and other materials should not be dumped into the drain /surplus course obstructing free ofwater.The applicants should make drainage network, at his own cost and the same is to be connected to normal storm water drainage/channel. There should not be any hindrance to the free flow of internal drain to downstream.
 - Since the site exists in close proximity with the Government channels and Eri on South, the necessary setback distance should be provided within the site as per the norms in existence and as per the rules in force of CMDA (as per the circular issued by the office of the Commissioner of Town & Country Planning, Chennai - 2 vide Roc. No.4367 /2019-BA2 / 13.03.2019) during development especially on south The CMDA should issue completion certificate only after obtaining compliance certificate NOC from WRD.
 - The applicant should clearly demarcate the boundary of his land before commencement of any developmental activities especially on the Southern side in the presence of Revenue and WRD authorities. The applicant should also maintain the measurement of the width of the channel earmarked in the Revenue records and should never be altered and must be maintained at all time without any encroachments and should be maintained as per Revenue records (FMB). If any damages occurred to the channel, the same should be restored to its original condition at his own cost.
 - The permission granted to the applicant, should not be altered/modified/changed to others. Based on the records submitted by the applicant, the permission is granted. If any documents seem to be fake/manipulated/fabricated, in future the above permission will be cancelled without any correspondence and deposited amount for caution deposit will not be refunded. Hence, the applicant is solely responsible of genuineness of the documents submitted.
 - The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the WRD officers concerned before commencement of work.
 - The applicant should abide by the rules and regulation of the WRD from time to time. The applicant should also abide by court of law of both State & Central Government from time to time.
 - The applicant should not object at any time for the maintenance works/improvement works of the channels and Eri which are proposed to be carried out by WRD. The applicant should give an undertaking in writing to the effect that the above proposal will not obstruct in case any maintenance/improvement/development works as per Revenue records (FMB), which are proposed to be carried out by WRD in future periodically.
 - The sewage water from the applicant's land should not let into the drain and for the disposal of the sewage water, suitable arrangements should be made for the same by the applicant, and as well as the construction materials/debris/garbage should not be dumped into the channel/river at any cost.
 - At any cost, sewage/silage should not be let into Channel, and the garbage debris and construction materials should not be dumped into the channel/river restricting the free flow of water.
 - The applicant should get clearance certificate for this site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries.
 - WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicant to encroach the WRD / Government Lands / river. The NOC for this site from the WRD is purely issued on the basis of inundation point of view.
 - The Channel in S.F.No.112/5, 113/2 and 114/3 on the southern side of the applicant land should be completely desilted and reconstructed by constructing retaining wall on either side of the channel with concrete bed as per the FMB upto their stretch at the applicant's own cost. The bed level of the above channel should be ascertained and restored before commencing the development activity in the presence of the concerned WRD Executive Engineer. Moreover, the width of entire channel as per Revenue records (FMB) along & within the stretch of applicant's land should be maintained properly without any change and without encroachments.
 - The Government channel in S.F.No.112/5, 113/2 and 114/3 stretch abutting the applicant boundary should be marked as per FMB and monitored and maintained by the applicant at his own cost. The width of the channel should be maintained without encroachments as per Revenue records and the hydraulic parameters of the field channel should be maintained. The applicant should make necessary periodical arrangements for free flow of water through the existing channel to the downside area within the proposed layout site. Also, the applicant should desilt the channel periodically and remove the obstruction then and there without any hindrance for free flow of water at his own cost within the proposed land, after the completion of project also.
 - The applicant should not carry out any other cross masonry structures across the channels without prior permission from WRD.
 - The proposed RCC small bridge should be constructed by the applicant only, across the field channel in Survey No.112/5 of Siruniyam Village, Ponneri Taluk, Thiruvallur District, Sholavaram Panchayat Union as earmarked in the sketch and the applicant should strictly adhere to maintain the below hydraulic particulars of the channel. The applicant should construct the CC small bridge with size as mentioned in the table below as earmarked in the sketch at his own cost for temporary occupation for three years from the date of agreement. If the applicant's land/road available on both sides of the channel, this permission is eligible for construction of small bridge. The width of the channel earmarked in the FMB sketch should be maintained as per Revenue records and should be maintained without encroachments.

The bed level of the bridge should be fixed in presence of the Executive Engineer concerned only after the existing channel original bed level ascertained and restored for flow direction. The applicant should provide a pucca concrete bed in the channel at the proposed bridge sites without fail in order to avoid erosion.

- Based on the hydraulic particulars mentioned above, the design and drawings of the proposed CC small bridge should be obtained from the Qualified structural Design Engineer and the same should be submitted to the Executive Engineer, WRD, Kosasthalayar Basin Division, Thiruvallur for getting approval before the commencement of work regarding hydraulic particulars. The work schedule for above proposal should be informed to the Executive Engineer, WRD, Kosasthalayar Basin Division, Thiruvallur for monitoring and also completion of bridge should be reported to the Executive Engineer.
- The applicant should pay an annual lease rent of Rs.5500/- (Rupees five thousand and five hundred only) for occupation of 77 sqm in the shape of Demand Draft drawn in favour of the Executive Engineer, WRD, Kosasthalayar Basin Division, Thiruvallur and it should be paid at one lumpsum for three years of Rs. 16,500/- (Rupees sixteen thousand and five hundred only) (Rupees sixteen thousand and five hundred only) in advance before the commencement of work. During execution/ after construction of above bridge, if any deviations are noted in above measurements and accordingly the lease rent also will be revised respectively.
- The applicant have to pay Service tax, GST etc., separately as per norms in existence and as amended from time to time without fail.
- The applicant should execute the lease agreement with the Executive Engineer, WRD, Kosasthalayar Basin Division, Thiruvallur before commencing the work and it should be renewed once in three years for which the applicant voluntarily has to apply within 2 months, before the expiry of the lease period. The lease rent is subjected to revision from time to time as per guideline value / Government orders.
- The applicant should pay the caution deposit of sum of Rs.3,00,000-(Rupees three lakh only) in favour of the Executive Engineer, WRD, Kosasthalayar Basin Division, Thiruvallur, which will be refunded only after completion of six months based on the certificate received from concerned Assistant Executive Engineer of WRD department stating that the construction work (bridge and field channel retaining wall) was completed without any damage to the Government property or the damage caused during execution if any, will be rectified fully by the applicant. If failed, the cost of restoration work will be borne by the applicant from the caution deposit.
- The construction of Abutments, Wing walls, Return walls, etc., should be constructed for the above proposed bridge and should also be constructed well within the applicant's land on either side. Moreover, the width of field channel as per Revenue records (FMB) should be maintained properly without any change.
- The applicant should not claim any privilege on the above leased portion of the land and if the leased portion of the land required for the Government for the benefit of some other large general common public schemes, the applicant should not object to handover the land to this department for which applicant are not entitled for any compensation. Further, the leased portion land to be handed over to this department in original condition.
- The above proposed RCC small bridge will be the Government WRD property after the construction. The applicant should not claim any privilege on the above leased portion of Government land (bridge land, field channel retaining wall abutting the applicant land) and should allow the WRD officials to inspect the channel as and when required and for the periodical inspection.
- The applicant should do proper soil test, and suitable foundation should be selected depending upon the soil condition and the structural design should be obtained from the approved Structural Engineer for construction of bridge.
- The WRD, will not be held responsible for the Structural Stability, safety and soundness of the bridge proposed by the applicant and WRD specifically recommend only for construction of bridge. The applicant should construct the proposed CC small bridge at his own cost. The applicant is solely responsible for the structural safety and stability of the proposed bridge and at any cost, WRD will not be held responsible for design and drawing adopted for proposed construction of RCC bridge.
- In case of transfer of the above said lands to the third party / association in future, in such case the lease rent should be paid by the third party / association periodically without fail, otherwise the NOC will be revoked and constructed bridge will also be removed without any correspondence, for which applicant is not entitled for any compensation and as well as legal entity.

The owner of the document received from the applicant in respect to the ownership is purely of applicant's responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development / Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land.

Failing to comply with any of the above conditions, WRD reserves rights to withdraw the Technical opinion on inundation point of view as well as temporary permission for the construction of CC small bridge across the channel to the above proposed site and in event, the applicant shall not be eligible for any compensation whatsoever and as well as legal entity.

(II)TNCDBR-2019, RULE NO : 47 (8) IN G.O(Ms) No.18,MAWS DEPARTMENT DATED:04.02.2019 & AMENDMENTS APPROVED IN G.O.Ms.No.16, MAWS (MAI DEPARTMENT DATED 31.1.2020 AND PUBLISHED IN TNGG ISSUE No.41 DATED:31.01.2020). ONE PERCENT OF LAYOUT AREA EXCLUDING ROAD, ADDITIONALLY, SHALL BE RESERVED FOR "PUBLIC PURPOSE". WITHIN THE ABOVE CEILING 0.5% OF AREA SHALL BE TRANSFERRED TO THE LOCAL BODY AND 0.5% OF AREA SHALL BE TRANSFERRED TO THE TANGEDCO OR TO THE LOCAL BODY FREE OF COST THROUGH A REGISTERED GIFT DEED BEFORE THE ACTUAL SANCTION OF THE LAYOUT.

(III)TNCDBR-2019, RULE NO : 47 (9) IN G.O(Ms) No.18,MAWS DEPARTMENT DATED:04.02.2019 & AMENDMENTS APPROVED IN G.O.Ms.No.16, MAWS (MAI DEPARTMENT DATED 31.1.2020 AND PUBLISHED IN TNGG ISSUE No.41 DATED:31.01.2020). THE OWNER OR DEVELOPER OR PROMOTER SHALL SELL THE EWS PLOTS ONLY FOR EWS PURPOSE. AMALGAMATION SHALL BE PERMISSIBLE IN THOSE CASES OF ECONOMICALLY WEAKER SECTION PLOTS, AFTER A PERIOD OF THREE YEARS. IN SUCH CASES OF AMALGAMATION, THE PLANNING PARAMETERS FOR ECONOMICALLY WEAKER SECTION AREAS SHALL NOT APPLY.

(IV) TNCDBR-2019, RULE NO: 47 (11)

THE COST OF LAYING IMPROVEMENTS TO THE SYSTEMS IN RESPECT OF ROAD, WATER SUPPLY, SEWERAGE, DRAINAGE OR ELECTRIC POWER SUPPLY THAT MAY BE REQUIRED AS ASSESSED BY THE CONCERNED AUTHORITY, NAMELY, THE LOCAL BODY AND TAMIL NADU ELECTRICITY BOARD, SHALL BE BORNE BY THE APPLICANT.

(V) LOCAL BODY SHOULD ENSURE COMPLIANCE OF ALL THE CONDITIONS STIPULATED BY PWD IN THEIR LETTER NO. DB/TS(3)/F-2732/NOC-SIRUNIAM/2022/DATED:20.04.2022, AND SHALL OBTAIN A LETTER FROM PWD CONFIRMING THE COMPLIANCE OF THE CONDITIONS BEFORE THE SANCTION AND RELEASE OF THE LAYOUT.
