CONDITIONS :

(I)THE APPLICANT SHOULD FOLLOW THE CONDITIONS MENTIONED BY THE CE, PWD/WRD, CHENNAI REGION, CHEPAUK, CHENNAI-5,LETTER NO.DB/T5(3)/F-11774&0403NOC-KOLATHUVANCHERY VILLAGE/2023/DATED:27.01.2023, ARE TO BE COMPLIED BY THE APPLICANT BEFORE ISSUING OF THE LAYOUT APPROVAL BY THE COMPETENT AUTHORITY (LOCAL BODY).

1.The applicants land should be filled with earth filling with proper compaction to the minimum Level of (+) 14.840m (i.e.) 2.32m above crest top level as (+)12.520m MSL of pour tank on Eastern side of the applicant site to protect the site from inundation during floods. The process of earth filling and compaction should be done in layers of not more than 0.30metre depth to achieve required degree of compaction for the depth varying from 1.16m to 1.62m depending upon the existing field levels. Also, the applicants should provide emergency pumping operation for the seepage water, if it is proposed to have basement floor and as well as dewatering arrangements during flood periods.

2.The all round pavement level within the site should be less than 14.840m. The applicants should prepare the layout proposal by considering the suitable internal storm water drainage network as micro drains of suitable sizes as per site conditions within the site and the same should be connected to the local drain/ channel, rainwater harvesting, road with road side drains and sewerage treatment plant and its disposal and garbages /debris and other solid waste management as per norms in existence with the applicants land according to existing rules in force and should get proper approval from competent authority without fail.

The sewage or any unhygienic drainage(Treated or untreated) should not be let into drain/channel/course at any cost and debris and other materials should not be dumped into the drain/surplus course obstructing free flow of water. The applicants should make drainage network, at their own cost and the same is to be connected to natural storm water drainage/channel. There should not be any hindrance to the free flow of internal drain to downstream.

3.Since the site exists in close proximity with the channel, the necessary setback distance should be provided within the site as per site conditions as per the norms in existence and as per the rules in force of CMDA(As per the circular issued by the office of the Commissioner of Town & Country Planning, Chennai - 2 vide ROC No.4367/2019-BA2/dated 13.03.2019) during development especially on West and there should no be any construction activities in setback areas in future also. The CMDA should issue completion certificate only after obtaining compliance certificate NOC from WRD.

4.The applicants should clearly demarcate the boundary of their land before commencement of any developmental activities especially on the west side in the presence of Revenue and WRD authorities. The applicants should also maintain the measurement of the width of the channel earmarked at all time without any encroachments and should be maintained as per Revenue records (FMB)

5.The permission granted to the applicant should not be altered/modified/changed to any others. Based on the records submitted by the applicants, the permission is granted. If any documents seem to be fake/manipulated/fabricated, in future the above permission will be cancelled without any correspondence. Hence, the applicants are solely responsible of genuinity of the documents submitted.

6.The WD officers should be allowed inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the WRD Officers concerned before commencement of work.

7.The applicants should abide by the rules and regulation of the WRD from time to time. The applicants should also abide court of law of both state & Central Government from time to time.

8.The applicants should not object at any time for the maintenance works/ improvement works of the channel which are proposed to be carried out by WRD. The applicant should give an undertaking in writing to the effect that the above proposal will not obstruct in case any maintenance /improvement/development works as per Revenue records(FMB) which are proposed to be carried out by WRD in future periodically.

9.The sewage water from the applicants land should not let into the drain and for the disposal of the sewage water, suitable arrangements should be made for the same by the applicants, and as well as the construction materials/debris/garbages should not be dumped into the channel/river at any cost.

At any cost, sewage/sullage should not be let into river, and the garbages, debris and construction materials should not be dumped into the channel/river restricting the free flow of water.

10. The applicants should get clearance certificate for their site from the Revenue Department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries.

11.WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicants to encroach the WRD/Government lands/river. The NOC for their site from the WRD is purely issued on the basis of inundation point of view.

12.The applicants should not carry out any other cross masonry structures across the channels without prior permission form WRD. The applicant is strictly instructed the existing constructed cut & cover structure should not be damaged, if any damages occurred that should be restored by the applicant at his own cost. In case of transfer of the above said lands to the third party/association in future, in such case the damages should be restores by the third party/association periodically without fail, otherwise the NOC will be revoked without any correspondence, for which applicants are not entitled for any compensation and as well as legal entity.

The owner of the document received from the applicants in respect to the ownership is purely of applicants responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development/Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land.

Failing to comply with any of the above conditions, WRD reserves rights to withdraw the Technical opinion on inundation point of view to the above proposed site and in event, the applicants shall not be eligible shall not be eligible for any compensation whatsoever and as well as legal entity.
