CONDITIONS:

(I) THE APPLICANT SHOULD FOLLOW THE CONDITIONS MENTIONED BY THE CE, PWD/WRD, CHENNAI REGION, CHEPAUK, CHENNAI-5 IN LETTER NO.DB/T5(3)/F- NOC 002491 UDAYAVARKOIL 000584 / 2022 / DATED 08.02.2023, WHICH ARE TO BE COMPLIED BY THE APPLICANT BEFORE ISSUING OF THE LAYOUT APPROVAL BY THE COMPETENT AUTHORITY (LOCAL BODY)

- The applicant's land should be filled with earth filling with proper compaction to the minimum Level of (+)25.350m (ie. 0.030m above Weir Crest level of Varatharajapuram Tank which is (+)25.320 m) to protect the site from inundation during floods.
The process of earth filling and compaction should be done in layers of not more than 0.30 metre depth to achieve required degree of compaction for the depth from 1.010m to 1.060m depending upon the existing field levels. Also, the applicant should provide emergency pumping operation for the seepage water, if it is proposed to have basement floor and as well as dewatering arrangements during flood periods.
- The all round pavement level within the site should not be less than (+)25.350m The applicant should prepare the layout proposal by considering the suitable internal storm water drainage network drains within the site i.e., micro drains of suitable size as per prevailing site conditions at her own cost. The same should be connected to the local drain/channel, rainwater harvesting, roads with road side drains and sewerage treatment plant and its disposal and garbages/debris and other solid waste management as per norms in existence within the applicant's land according to existing rules in force and should get proper approval from competent authority without fail.
The sewage or any unhygienic drainage (Treated or Untreated) should not be let into Eri /channel/course at any cost and the debris and other materials should not be dumped into the drain /surplus course obstructing free flow of water. The applicant should make drainage network, at his own cost and the same is, to be connected to natural storm water drainage / channel. There should not be any hindrance to the free flow of internal drain to downstream.
- Since, the site exists in close proximity with the Water Bodies, the necessary setback distance should be provided within the site as per the norms in existence and as per the rules in force of CMDA (as per the circular issued by the office of the Commissioner of Town & Country Planning, Chennai - 2 vide Roc No 4367 / 2019- BA2/ 13.03.2019) during development and no construction activities are to be executed in the setback area in future also. The CMDA should issue completion certificate only after obtaining compliance certificate NOC from WRD.
- The applicant should clearly demarcate the boundary of his land before commencement of any developmental activities in the presence of Revenue and WRD authorities.
- The permission granted to the applicant, should not be altered/modified/ changed to any others: Based on the records submitted by the applicant, the permission is granted. If any documents seem to be fake/manipulated/fabricated, in future the above permission will be cancelled without any correspondence. Hence, the applicant is solely responsible of genuineness of the documents submitted
- The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the WRD officers concerned before commencement of work.
- The applicant should abide by the rules and regulation of the WRD from time to time. The applicant should also abide court of law of both State & Central Government from time to time.
- The applicant should get clearance certificate for his site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries
- The sewage water from the applicant's land should not let into the drain and for the disposal of the sewage water, suitable arrangements should be made for the same by the applicant, and as well as the construction materials/debris/garbages should not be dumped into the Waterbody at any cost.
- At any cost, sewage/sullage should not be let into river, and the garbages debris and construction materials should not be dumped into the Waterbody restricting the free flow of water.
- WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicant to encroach the WRD / Government Lands / river. The NOC for his site from the WRD is purely issued on the basis of inundation point of view
- Regarding drainage network purely dealt with CMDA or local body who maintaining the Micro drains and whereas WRD is dealt with Macro drains only. Hence, the drainage network has to be decided by the CMDA or applicant within the site. If the particular site is prone as vulnerable for high inundation, then WRD will suggest only peripheral drain size or otherwise, WRD suggestion is not forwarded necessary.

The owner of the document received from the applicant in respect to the ownership is purely of applicant's responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development / Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land.

Failing to comply with any of the above conditions. WRD reserves rights to withdraw the Technical opinion on inundation point of view to the above proposed site and in event, the applicant shall not be eligible for any compensation whatsoever and as well as legal entity.
