- The applicants' land should be filled with earth filling with proper compaction to the minimum level of (+)13.100m i.e.2.600m above the FTL of Sothupakkam tank Weir crest level as (+)10.500m to protect the site from inundation during floods. The process of earth filling and compaction should be done in layers of not more than 0.30m depth to achieve required degree of compaction for the depth to 1.980m depending upon the existing field levels. Also, the applicants should provide emergency pumping operation for the seepage water, if it is proposed to have basement floor and as well as dewatering arrangements during flood periods.
- The applicants should prepare the layout proposal by considering the suitable internal storm water drainage network as micro drains of suitable size as per site condition within the site, and the same should be connected to local drain, rainwater harvesting, roads with road side drains and sewerage treatment plant and its disposal & garbages / debris and other solid waste management disposal as per norms in existence within the applicant land according to the existing rules in force and should get proper approval from the competent authority without fail. The sewage or any unhygienic (treated or untreated) drainage should not be let into the drain/channel at any cost and the debris and construction materials should not be dumped into the drain/channel obstructing free flow of water. The applicants should make drain networks at their own cost and the same is to be connected to the natural storm water drainage or channel / drain.
- The applicant should provide necessary setback distance especially on Northern side within the site as per site condition as per the norms in existence and as per the rules in force of CMDA (as per the circular issuer by the office of the Commissioner of Town & Country Planning, Chennai - 2 vide Roc, No. 4367 / 2019 - BA2 / Dated: 13.03.2019) during development and there should not be any construction activities in future also, the CMDA should issue completion certificate only after obtaining compliance certificate NOC from WRD.
- The applicants should clearly demarcate the boundary of their land before commencement of any developmental activities in the presence of Revenue and WRD authorities concerned without fail and should not encroach the Government land / water body and the same should be maintained as it is in the Revenue records.
- The permission granted to the applicants, should not be altered / modified / changed to any others. Based on the records submitted by the applicants, the permission is granted. If any documents seem to be fake / manipulated / fabricated, in future the above permission will be cancelled without any correspondence. Hence, the applicants are solely responsible of genuinely of the documents submitted.
- The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the WRD officers concerned before commencement of work.
- The applicants should abide by the rules and regulation of the WRD from time to time. The applicants should also abide court of law of both State & Central Government from time to time.
- The applicants should get clearance certificate for this site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries.
- WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicants to encroach the WRD / Government Lands / river. The NOC for this site from the WRD is purely issued on the basis of inundation point of view.
- The sewage water from the applicant land should not let into the drain and for the disposal of the sewage water, suitable arrangements should be made for the same by the applicants, and as well as the construction materials / debris / garbages should not be dumped into the channel / river / tank at any cost.

- At any cost, sewage / sullage should not be let into rive, and the garbages, debris and construction materials should not be dumped into the channel / river restricting the free flow of water.
- The applicant should not object at any time for the maintenance work / improvements work of the tank which are proposed to be carried out by WRD. The applicants should given an undertaking in writing to the effect that the above proposal will not obstruct in case any maintenance / improvement / development works as per Revenue records (FMB) which are proposed to be carried out by WRD in future periodically.
 - The applicant should not carry out any others cross masonry structures across the Channel without prior permission from WRD..
 - After the completion of the work, the damaged portion of the Channel structure If any should be set right and restored to the Original condition at this own cost.
 - The Government field Channel in S.F. No. 82 & 87 on Northern side of the applicant land should be completely desilted and re-sectioned by constructing retaining wall on either sides of the channel with concrete bed as per the FMB at the applicant's own cost. The bed level of the above channel should be ascertained and restored before commencing the development activity in the presence of the concerned WRD Executive Engineer. Moreover, the width of entire channel as per Revenue records (FMB) along & within the stretch of applicant's land should be maintained properly without any change and without encroachments.
 - The Government field channel in S.F. No.82 & 87 on Northern side stretch abutting the applicant boundary should be marked as per FMB and monitored and maintained by the applicant at his own cost. The width of the channel be maintained without encroachments as per Revenue records and the hydraulic parameters of the field channel should be maintained. The applicant should make necessary periodical arrangements for free flow of water through the existing channel to the downside area within the proposed layout site. Also, the applicant should de-silt the channel periodically and remove the obstruction then and there without any hindrance for free flow of water at his own cost within the proposed land, after the completion of project also.

The owner of the document received from the applicants in respect to the ownership is purely of applicant's responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development / Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location d land.

Failing to comply with any of the above conditions, WRD reserves rights to withdraw the Technical opinion on inundation point of view to the above proposed site and in event, the applicants shall not be eligible for any compensation whatsoever and as well as legal entity.
