CONDITIONS:

(I) THE FOLLOWING CONDITIONS OF PWD VIDE THE CE.WRD.CHIENNAI REGION, CHEPAUK, CHIENNAI -5, LETTER NO.DB / T5(G) / F. NOC 2142 AGARAMTHEN VILLAGE 1218 / 2024 / DATED. 26.02.2024, ARE TO BE COMPLIED BY THE APPLICANT BEFORE ISSUING OF THE LAYOUT APPROVAL BY THE COMPETENT AUTHORITY (LOCAL BODY)

- The applicants' land should be filled with earth with proper compaction to the level of (+) 12.160m to protect the site from inundation during floods. The process of earth filling and compaction should be done in layers of not more than 0.30m depth to achieve the required degree of compaction for an average filling varying from 1.540m to 1.650m depending upon the existing field levels and the existing applicant land should be raised to a level of (+) 12.160m (i.e) 1.26m above the crest level of Agaramthen Tank (+) 10.900 on Western side of the applicant to avoid inundation during the flood periods. The all round payment level of the proposed site should not be less than (+) 12.160m.
- The applicants should clearly demarcate the boundary of their land before the commencement of any developmental activities in the presence of Revenue and WRD authorities concerned without fail and should not encroach the government land and the same should be maintained as it is in the revenue records if any damages occurred in the tank and it should be restored to its original condition at their own cost
- The permission granted to the applicants, should not be altered/modified/ changed to any others. Based on the records submitted by the applicants, the permission is granted. If any documents seem to be fake/manipulated/fabricated, in future the above permission will be cancelled without any correspondence and deposited amount for caution deposit will not be refunded. Hence, the applicants are solely responsible of genuineness of the documents submitted.
- The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the WRD officers concerned before commencement of work.
- The applicants should abide by the rules and regulation of the WRD from time to time. The applicants should also abide court of law of both State Central & Government from time to time.
- WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicants to encroach the WRD / Government Lands / Channel.

TECHNICAL SUGGESTION

- The applicants should prepare the layout proposal by considering the suitable internal storm water drainage network of peripheral drain of size not less than 0.90m x 0.60m & lateral of suitable sizes and the same should be connected to the local drain/channel, rainwater harvesting and sewerage treatment plant and its disposal and garbages / debris and other solid waste management as per norms in existence within the applicants land according to existing rules in force and should get proper approval from competent authority without fail.
- The sewage or any unhygienic drainage (Treated or Untreated) should not be let into drain /channel/course at any cost and the debris and other materials should not be dumped into the drain /surplus course obstructing free flow of water. The applicants should make drainage network, at their own cost and the same is to be connected to natural storm water drainage/channel.
- The necessary setback distance should be provided within their land as per the norms in existence and as per the rules in force of CMDA (Circular issued by the office of the Commissioner of Town & Country Planning, Chennai - 2 vide Roc. No. 4367/2019-BA2/13.03.2019) during development and there should not be any construction. The CMDA should issue the completion certificate only after obtaining compliance certificate from WRD.
- The applicants should get clearance certificate for their site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries. The sewage water from the applicants' land should not let into the drain and for the disposal of the sewage water, suitable arrangements should be made for the same by the applicant, and as well as the construction materials/debris/garbages should not be dumped into the Channel at any cost. At any cost, sewage / suliage should not be let into river, and the garbages, debris and construction materials should not be dumped into the Channel / river restricting the free flow of water. The true ness of the document received from the applicants in respect to the ownership is purely of applicants responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development / Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land. Failing to comply with any of the above conditions, WRD reserves rights to withdraw the Technical opinion along with NOC on inundation point of view for the above proposed site and in event, the applicants shall not be eligible for any compensation whatsoever and as well as legal entity.
