CONDITIONS:

(I) THE FOLLOWING OF CONDITIONS OF PWD VIDE CE, WRD, CHENNAI REGION, CHEPAUK, CHENNAI-5, LETTER NO.DB/TS3/F-NOC 4144 MAFUSKHANPET VILLAGE 004767/2023 DATED:14.06.2024, ARE TO BE COMPLIED BY THE APPLICANT BEFORE SANCTION OF THE LAYOUT.

1. The applicant's land should be filled with earth filling with proper compaction to the minimum Level of (+)10.800m to 0 110m above the Arumandhai Tank Weir crest level as (+)10.690m to protect the site from inundation during floods. The process of earth filling and compaction should be done in layers of not more than 0.30 metre depth to achieve required degree of compaction for the depth 1.260m depending upon the existing field levels. Also, the applicant should provide emergency pumping operation for the sewage water, if it is proposed to have basement floor and as well as dewatering arrangements during flood periods. The all round pavement level within the site should be less than (+)10.800m and the regular habitation should not be below road level (+)10. 200m
2. The applicants should clearly demarcate boundary of their land before commencement of any developmental activities in the presence of Revenue, Local body and WRD authorities concerned without fail and should not encroach the Government land (channel & road) and the same should be maintained as it is in the Revenue records
3. The permission granted to the applicant, should not be altered/modified/changed to any others Based on the records submitted by the applicant the permission is granted. If any documents seem to be fake/manipulated/fabricated, in future the above permission will be cancelled without any correspondence Hence, the applicant is solely responsible of genuinity of the documents submitted
4. The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the WRD officers concerned before commencement of work
5. The applicant should abide by the rules and regulation of the WRD from time to time The applicant should also abide court of law of both State & Central Government from time to time
- 6.WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicant to encroach the WRD / Government Lands / river The NOC for this site from the WRD is purely issued on the basis of inundation point of view
7. The Government field channel is S. Nos 23/10 & 22/10 on Northern side within the applicant land stretch should be completely desilted and re-sectioned by constructing retaining wall on either sides of the channel with concrete bed as per the FMB at the applicant's own cost. The bed level of the above channel should be ascertained and restored before commencing the development activity in the presence of the concerned WRD Executive Engineer Moreover, the width of entire channel as per Revenue records (FMB) along & within the stretch of applicant's land should be maintained property without any change and without encroachments
8. The Government field channel is S Nos 23/10 & 22/10 on Northern side within the applicant land stretch abutting the applicant boundary should be marked as per FMB and monitored and maintained by the applicant at his own cost. The width of the channel should be maintained without encroachments as per Revenue records and the hydraulic parameters of the field channel should be maintained The applicant should make necessary periodical arrangements for free flow of water through the existing channel to the downside area within the proposed layout site Also, the applicant should de-silt the channel periodically and remove the obstruction then and there without any hindrance for free flow of water at his own cost within the proposed land, after the completion of project also.
9. The applicant should not carry out any other cross masonry structures across the River / Eri / Channel / Pond without prior permission from WRD If any damages occurred to the Channel / Odai or any water bodies that belong to government, the same should be restored and rectified to its original condition at their own cost by the applicant.

Technical Suggestion:

- a) The applicant should prepare the layout proposal by considering the suitable internal storm water drainage network as micro drain of suitable sizes, within the site as per site condition and the same should be connected to the local drain/channel rainwater harvesting roads with road side drain and sewerage treatment and its disposal and garbages/debris and other solid waste management as per norms in existence within the applicant's land according to existing rules in force and should get proper approval from competent authority without fail
- b) The sewage or any unhygienic drainage (Treated or Untreated) should not be let into drain /channel/ course at any cost and the debris and other materials should not be dumped into the drain surplus course obstructing free flow of water. The applicant should make drainage network, at his own cost and the same is to be connected to natural storm water drainage channel There should not be any hindrance to the free flow of internal drain to downstream.
- c) The sewage water from the applicant's land should not let into the drain and for the disposal of the sewage water, suitable arrangements should be made for the same by the applicant, and as well as the construction materials/debris/ garbages should not be dumped into the channel/river at any cost.
- d) At any cost, sewage / sullage should not be let into river, and the garbages, debris and construction materials should not be dumped into the channel/river restricting the free flow of water.
- e) The applicant should get clearance certificate for this site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries

The owner of the document received from the applicant in respect to the ownership is purely of applicant's responsibility and it is only for reference purpose to this department The legal validity of this document should be verified by the Development/Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land

Failing to comply with any of the above conditions, WRD reserves rights to withdraw the Technical opinion on inundation point of view as well as temporary permission for the construction of culverts across the channel to the above proposed site and in event, the applicants shall not be eligible for any compensation whatsoever and as well as legal entity.
