CONDITIONS :

(I) THE FOLLOWING OF CONDITIONS OF PWD VIDE CE, WRD, CHENNAI REGION, CHEPAUK, CHENNAI-5, LETTER NO.DB/TS(3)/F-NO.0180 MEDAVAKKAM VILLAGE 5195/2023/DATED:07.07.2023 ARE TO BE COMPLIED BY THE APPLICANT BEFORE SANCTION OF THE LAYOUT.

- The applicants' land should be filled with earth with proper compaction to the level of (+)10.500m-to protect the site from inundation during floods. The process of earth filling and compaction should be done in layers of not more than 0.30m.depth to achieve the required degree of compaction for an average depth to 1.27m depending upon the existing field levels and the existing applicant land should be raised to a level of (+)10.500m (i.e.2.345m above crest top level of Pallikaranai Anai eri as (+).8.155m). Also, the applicant should provide emergency pumping operation for the seepage water, if it is proposed to have basement floor as well as de watering arrangements during flood periods. The pavement level of entire area should not be less than (+)10.500m.
- The permission granted to the applicant, should not be altered / modified / changed to any others. Based on the Revenue records submitted by the applicant, the permission is granted. If any documents seem to be fake / manipulated / fabricated, in future the above permission will be cancelled without any correspondence. Hence, the applicant is solely responsible of genuinity of the documents submitted . If there is any discrepancy or any other encroachments activities, the applicant is held responsible in the future.
- The applicant should clearly demarcate the boundary of their land before the commencement of any developmental activities in presence of Revenue authorities and WRD authorities concerned without fail and should not encroach the Government land and the same should be maintained as it is in the Revenue records.
- The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the WRD officers concerned before commencement of work
- The applicant should abide by the rules and regulation of the WRD from time to time. The applicant should also abide court of law of both State & Central Government from time to time.
- WRD is giving opinion only in connection with the inundation aspect and does not deliver any rights to the applicant to encroach the Government Lands. The NOC for this site issued from WRD is purely issued on the basis of inundation point of view.

Technical Suggestions:

- The applicant should prepare the layout proposal by considering the suitable internal storm water drainage network as micro drains (i.e. Pheripheral drain size not less than 0.90m x 0.60m and lateral drains of suitable size within the site as per condition) rainwater harvesting roads with road side drains and sewerage treatment plant and its disposal & garbages/debris and other solid waste management disposal as per norms in existence within the applicant tare according to the existing rules in force and should get proper approval from the competent authority without fail. The sewage or any unhygienic (treated or untreated) drainage should act in force and should get proper approval from the competent authority without fail. The sewage or any unhygienic (treated or untreated) drainage should act in force and should get proper approval from the competent authority without fail. The sewage or any unhygienic (treated or untreated) drainage should act in force and should get proper approval from the competent authority without fail.
 - The necessary setback distance (not less than 3.0m) should be provided with in the site according to the site condition as per the norms in existence and as per the rules in force of CMDA (circular issued by the office of the Commissioner of Town & Country Planning, Chennai - 2 vide Roc.No.4357 / 2019-BA2 / 13.03.2019) during development and there should not be any construction activities in future also. The CMDA should issue completion certificate only after obtaining compliance certificate NOC from WRD.
 - The applicant for this land should get a clearance certificate from the Revenue department to make sure that the site is not an encroached property of the water body as well as confirming this site boundary.
 - The sewage water from the applicants' land should not let into the drains and for the disposal of the sewage water and suitable arrangements should be made for the same by the applicant and as well as the construction materials/debris/garbage should not be dumped into the channel I river at any cost.
- At any cost, sewage/sullage should not be let into channel, and the garbages, debris and construction materials should not be dumped into the channel/river restricting the free flow of water.
- The owner of the document received from the applicant In respect to the ownership is purely of applicant's responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development / Revenue authorities, The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land.
- Failing to comply with any of the above conditions, WRD reserves rights to withdraw the Technical opinion on inundation point of view to the above proposed site and in event, the applicant shall not be eligible for any compensation whatsoever and as well as legal entity.
