 DOC NO:4609/2024, DATED:30.03.2024 @ SRO AVADI.

CONDITIONS:
 (I) THE FOLLOWING CONDITIONS OF PWD VIDE THE CE,WRD,CHENNAI REGION, CHEPAUK, CHENNAI-5, LETTER NO.DB / TS(3) / F-5780/NOC-SORANCHERI VILLAGE/ 2022 / DATED, 28.06.2022, ARE TO BE COMPLIED BY THE APPLICANT BEFORE ISSUING OF THE LAYOUT APPROVAL BY THE COMPETENT AUTHORITY (LOCAL BODY)

- The existing ground level of the site should be raised to minimum level of (+)22.980m [i.e. 0.12m below the FTL of Vayalannur tank (+)23.100m] and the applicants' site with filling level varies from 0.890m to 1.280m with layers of not more than 0.30 metre depth to achieve required degree of compaction to the entire area of the applicant's land to avoid inundation during the heavy rains. Also, the applicants should provide emergency pumping operation for the seepage water, if it is proposed to have basement floor and as well as dewatering arrangements during flood periods.
- The applicants should prepare the layout proposal by considering the suitable internal storm water drainage network of suitable size as micro drain within the site as per site condition, rainwater harvesting, roads with side drain and sewerage treatment plant and its disposal & garbages / debris and other solid waste management as per norms in existence within the applicants' land, according to the existing rules in force and should get proper approval from the competent authority without fail. The sewage or any unhygienic drainage (Treated or Untreated) should not be let into drain / channel / course at any cost and the debris and other materials should not be dumped into the drain / surplus course obstructing free flow of water. The applicants should make drainage network, at their own cost and the same is to be connected to natural storm water drainage / channel.
- The applicants should clearly demarcate the boundary of their land before commencement of any developmental activities in the presence of Revenue & WRD authorities concerned without fail and should not encroach the Government Land / water body and the same should be maintained as it is in the Revenue records.
- The permission granted to the applicants, should not be altered / modified / changed to any others. Based on the Revenue records submitted the permission is granted. If any documents seem to be fake / manipulated / fabricated, in future the above permission will be cancelled without any correspondence. Hence, the applicants are solely responsible of genuinity of the documents submitted. If there is any discrepancy or any other encroachments activities, the applicants are held responsible in future.
- The necessary setback distance should be provided with in the site especially on west as per the norms in existence and as per the rules in force of CMDA (Circular issued by the office of the Commissioner of Town Country Planning, Chennai-2 vide Roc. No.4367 / 2019-BA2 / Dated: 13.03.2019) during development and there should not be any construction activities in the setback areas in future also. The CMDA should issue completion certificate only after obtaining compliance certificate NOC from WRD.
- The applicants should abide by the rules and regulation of the WRD from time to time. The applicants should also abide court of law of both State & Central Government from time to time.
- The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the WRD officers concerned before commencement of work.
- The applicants' land seems to be ryotwari land, which would be classified as Wet land. Hence, these lands are to be converted from agricultural commercial zone by the competent authority. The applicants should get clearance certificate for this site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming boundaries.
- WRD is giving opinion only in connection with the inundation aspects, and does not deliver any rights to the applicants to encroach the WRD / Government Lands / River / channel. The NOC for this site issued from WRD is purely issued on the basis of inundation point of view.
- The channel stretch abutting the applicants' boundary should be marked as per FMB and monitored and maintained by the applicants at their own cost. The width of the course should be maintained without encroachments as per Revenue records and the hydraulic parameters of the field channel should be maintained. The applicants should make necessary periodical arrangements for free flow of water through the existing channel to the downside area within the proposed layout site. Also, the applicants should de-silt the channel periodically and remove the obstruction then and there, without any hindrance for free flow of water at their own cost within the proposed land.
- The Government field channel stretch in S.F.No.100/2 adjacent to the site on the Western boundary land should be completely de-silted and re-sectioned by constructing retaining wall on either side of the channel as per the FMB at their own cost up to their stretch. The bed level of the above channel should be ascertained and resorted before commencing the development activity in presence of the Executive Engineer. Moreover, the width of entire field channel as per Revenue records (FMB) within the stretch of applicants' land should be maintained properly without any change at their own cost.
- The applicants should not object at any time for the maintenance work / improvements work of the channel which are proposed to be carried out by WRD. The applicants should give an undertaking in writing to the effect that the above proposal will not obstruct in case any maintenance / improvements / development works as per Revenue records (FMB), which are proposed to be carried out by WRD in future periodically.
- The sewage water from the applicants' land should not let into the drains and for the disposal of the sewage water and suitable arrangements should be made for the same by the applicants and as well as the construction materials / debris / garbages should not be dumped into the channel / river at any cost. At any cost, sewage / sullage should not be let into channel, and the garbages, debris and construction materials should not be dumped into the channel / river restricting the free flow of water. The owner of the document received from the applicants in respect to the ownership is purely of applicants' responsibility and it is only for reference purpose to this department. The legal validity of this document should be verified by the Development / Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of the land. Failing to comply with any of the above conditions, WRD reserves the right to withdraw the permission on above survey number on inundation point of view and in that event, the applicants shall not be eligible for any compensation what so ever and as well as legal entry.
- (I) TNCDBR 2019 RULE NO. 47 (IN G.O.Ms.No.18/MSW/DEPARTMENT DATED:04.07.2019 & AMENDMENTS APPROVED IN G.O.Ms.No.16/MSW/DEPARTMENT DATED:31.1.2020 AND PUBLISHED IN TNGG.
